“Do You Think It’s About Time You Start Focusing on Your Future as an Anti- Fraud Professional”

Opportunities for anti-fraud professionals today *are vast*. That said, you must *get* that *early advantage* in life as soon as possible.

Not only should you stay up to date on current trends, but more importantly, it is imperative you *make those professional networking contacts NOW*. The reason for that is that you need to jump start your career today, and not years from now. That's where membership in your local college ACFE chapter and the Georgia state chapter comes into play.

When you become a student ACFE chapter member as well as a member of the state chapter's (**GACFE**) fraud educational group, you are getting the biggest bang for your buck in two ways. You will join a professional organization on campus, where you will network with your peer students and have the opportunity for leadership positions. And through the state chapter, as a volunteer Fraud Educational coordinator, you will gain the opportunity to network with professionals while also receiving the benefit of monthly educational presentations by industry experts.
